

SILICON STUDIO'S FANTASICA ACHIEVES
SIX MILLION DOWNLOADS MILESTONE
*Popular Mobile Game Continues To
Conquer Hearts of New Gamers Worldwide*

Tokyo, Japan –April 18th– Silicon Studio, the international developer of acclaimed video game *Bravely Default*, *3D Dot Game Heroes*, and *YEBIS 2*, the innovative next-gen middleware, is proud to announce their free-to-play mobile title ***Fantasica*** has reached over six million downloads worldwide. With its addictive blend of RPG, card-collecting, and tower defense gameplay, ***Fantasica*** continues to gain new players around the globe with its charming anime-style visuals, social online features, and consistent monthly updates of exciting new content.

“It is very gratifying to see the continued successful growth of ***Fantasica***,” states Takehiko Terada, CEO of Silicon Studio. “It was only half year ago that we surpassed five million downloads and it’s a great accomplishment to see our community grow to over five million users today. We are focused on delivering more compelling online content in the near future as our development team continues to focus on making ***Fantasica*** one of the best online mobile games.”

Available for both Android and iOS devices through DeNA’s popular mobile and social games platform Mobage (<http://mobage.com>), ***Fantasica*** has wowed gamers across the world with beautiful visuals, brilliant music, and addictive gameplay.

Fantasica received Mobage's Game of the Year Award for Best Art Style, as created by famed Final Fantasy art director Hideo Minaba. **Fantasica** is available in the US, Japan, Europe, China, South Korea, Taiwan and across the globe.
