### **Silicon Studio, certified as AWS Standard Technology Partner**

Accumulated knowledge in the Game & Entertainment business to be utilized  
For further deployment of AWS-based online solutions in a broad range of fields

**Tokyo, Japan, (Oct. 24, 2018)** – Middleware technology and game development company, Silicon Studio Corporation is pleased to announce that it has been approved as a certified Standard Technology Partner for the AWS Partner Network (hereinafter “APN”) which is provided by the Amazon Web Service (hereinafter “AWS”).

We help various business challenges about server programs from consulting, designing, development and 24 hour/365 days' operations. Our major clients include many game and entertainment industry including online games. Our proven and reliable services support to develop consumer games and arcade games which demands high speed communication responses and highly durable networks. Our accomplishments include world-wide large-scale projects which prove our extensive experience.

The AWS Partner Network (APN) is the global partner program for AWS.

We proudly announce to offer AWS-based online solutions to wide range of businesses and industries by leveraging our high-integrity know-hows and technologies accumulated in the game and entertainment as a partner of APN, one of the best world-class cloud provider.

### **About Silicon Studio Corporation**

Silicon Studio, a Japan-based game engine and middleware company, develops and provides advanced technologies such as “YEBIS” post effects, “Enlighten” real-time global illumination, and “Mizuchi” real-time rendering to major game and entertainment production studios worldwide. These technologies have helped to bring high quality graphics to a large number of successful AAA titles.
